

Julie Ebersole

Senior Executive Director, Laser Spine Institute Scottsdale

Experience

As an oncology nurse and medical operations executive with over a decade of experience, Julie Ebersole's desire to help people feel better is the reason she comes to work every day. Julie was drawn to Laser Spine Institute because of our mission to deliver the highest level of spine care. With us, she saw an organization aligned with her core beliefs of exceeding patient expectations and changing lives.

In her role as Senior Executive Director of our Scottsdale facility, Julie puts these beliefs into practice as she oversees all clinical and business operations to ensure the exceptional patient-centered care we are known for. Her unique combination of compassion, servant leadership and clear communication has led to proven success in directing operational improvements and increasing patient satisfaction throughout her career.

Before coming to Laser Spine Institute, Julie worked for companies including Banner University Medical Group as an Executive Director, Vicinitas Cancer Center as Vice President of Operations and Cancer Treatment Centers of America where she served as Director of Oncology Patient Services. Demonstrating her commitment to organizational excellence, Julie is proud to have achieved green belt certification in Lean Six Sigma.

Entering the health care field was a natural progression for Julie because of her love of helping people. She originally became a nurse when her family encouraged her to return to school after the birth of her fourth child. After years of hard work, Julie earned a Master of Science in Nursing with an emphasis in leadership and management from Walden University. Among her many professional accomplishments, she considers this to be her proudest.

When she isn't helping to create and uphold the culture at Laser Spine Institute Scottsdale, Julie enjoys working on her ranch, paintball, ice skating and reading. Above all, she treasures the time she spends with her family.
