## Experience

Michael Perry, M.D. is the Chief Medical Director at Laser Spine Institute. Not only does he supervise all of Laser Spine Institute's medical operations, but he also ensures compliance with regulatory and certification standards so that our institution can continue to be world-renowned for excellence.

Dr. Perry is dedicated to the principle of medical education and he travels extensively to ensure that medical professionals, students and patients have access to the most innovative information on spine conditions. He is a fixture at international medical conferences and a contributor to leading publications.
